Point of Diversion or Rediversion

Present:

Sacramento River:

Point 1 – "Verona Pumping Plant"

By California Coordinate System of 1983, Zone 2, North 2,046,387 feet and East 6,674,458 feet, being within SW 1/4 of SE 1/4 of projected Section 23, T11N, R3E, MDB&M

Point 2 – "Prichard Lake Pumping Plant"

By California Coordinate System of 1983, Zone 2, North 2,028,188 feet and East 6,674,958 feet being within the SW ¼ of SE ¼ of projected Section 12, T10N, R3E MDBM

Point 3 – "Elkhorn Pumping Plant"

By California Coordinate System of 1983, Zone 2, North 2,018,988 feet and East 6,670,658 feet, being within the NE ¼ of SE ¼ of projected Section 23, T10N, R3E MDBM

Point 6 – "Riverside Pumping Plant"

By California Coordinate System of 1983, Zone 2, North 1,993,487 feet and East 6,686,758 feet, being within the SE ¼ of NE ¼ of projected Section 17, T9N, R4E MDBM.

Natomas Cross Canal:

Point A – "Bennett Pumping Plant"

By California Coordinate System of 1983, Zone 2, North 2,050,787 feet and East 6,678,158 feet being within NE ¼ of NW ¼ of projected Section 24, T11N, R3E MDBM.

Point B – "Northern Pumping Plant"

By California Coordinate System of 1983, Zone 2, North 2,054,587 feet and East 6,683,108 feet being within the SE ½ of NW ½, of projected Section 18, T11N, R4E MDBM

Reclamation District 1000 Eastern Drainage Canal Point of Rediversion:

By California Coordinate System of 1983, Zone 2, North 1,991,388 feet and East 6,701,359 feet, being within SE 1/4 of SW 1/4 of Section 14, T9N, R4E, MDB&M.

Point of Diversion or Rediversion - cont.

Proposed:

Reclamation District 1000 Eastern Drainage Canal Point of Rediversion:

By California Coordinate System of 1983, Zone 2, North 1,991,388 feet and East 6,701,359 feet, being within SE ¼ of SW ¼ of Section 14, T9N, R4E, MDB&M.

Reason for Proposed Change:

This petition is filed pursuant to the American Basin Fish Screen and Habitat Improvement project in Sutter and Sacramento Counties. The project is proposed to avoid and/or minimize potentially adverse effects to at-risk fish species, including listed and proposed species, that inhabit or otherwise use the NCMWC watercourses during various life stages, to maintain important habitat within the Natomas Basin created by the operation of NCMWC's water distribution facilities, and to ensure the reliability of NCMWC water diversion and distribution facilities for beneficial use of its water supply with the NCMWC service area.

We have access to the proposed point of diversion by virtue of written agreement:

The new Sankey diversion is sited on a portion of three parcels of land, two of which are privately owned. The third is owned by the State of California, Sutter County APN 35-001-020. Right of ways for the facility construction will be obtained from the two private landowners, and approvals for the use of the state land would be obtained from the State Lands Commission and the State Reclamation Board.

Persons Known Who May Be Affected by the Proposed Change:

Applicants listed below have points of diversion between the Natomas Cross Canal and the outlet of the RD-1000 Main Drainage Canal near the mouth of the American River. The list excludes other water rights held by NCMWC.

### ENVIRONMENTAL INFORMATION FOR PETITIONS

Before the State Water Resources Control Board (SWRCB) can approve a petition to change your water right permit or a petition for extension of time to complete use, the SWRCB must consider the information contained

**☒** Petition for Change

License 1050 (Application 534)

☐ Petition for Extension of Time

in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.	
1. DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED  For a petition to change, provide a description of the proposed changes to your project including, but not limited to type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.	5,

	Date: February 23, 2010 Signature: Dee Swearingen Natomas Central Mutual Water Co.

#### 1. Description of the Proposed Changes:

For a petition to change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used.

Natomas Central Mutual Water Company (NCMWC) holds six water right licenses and one permit to divert water from the Sacramento River, Natomas Cross Canal and interior drainage system within its service area. Water under NCMWC License 1050 (Application 534) can be diverted from Points 1, 2, 3 and 6, (Verona, Pritchard Lake, Elkhorn and Riverside Pumping Plants, respectively) on the Sacramento River and Points A and B (Northern and Bennett Pumping Plants, respectively) on the Natomas Cross Canal. The attached map dated February, 2010 shows the location of the points of diversion and the service area. Water can be directly diverted under License 1050 up to 42.18 cfs from April 1 through October 1 of each year for irrigation use on 5,903.54 acres within NCMWC's 51,091 acre service area and municipal, industrial, and domestic use within the Sacramento Metropolitan Airport and the Sacramento Airport Special Planning Area. Water may only be diverted for municipal and industrial purposes at the existing Elkhorn Diversion (Point 3). Changes to License 1050 requested in this petition are proposed pursuant to the American Basin Fish Screen and Habitat Improvement Project in Sutter and Sacramento Counties and include change in point of diversion and purpose of use.

NCMWC is hereby seeking authority to include the proposed Sankey Diversion facility on the Sacramento River as a point of diversion under License 1050 (see attached map dated February, 2010). The Sankey facility will be used in conjunction with existing points of diversion authorized under License 1050. Pages 2-17 through 2-35 of the American Basin Fish Screen and Habitat Improvement Project EIR (enclosed herewith on CD) include a detailed description of the proposed Sankey diversion facility. A computer generated rendering of the proposed facility is included in Attachment 4. Construction of the Sankey diversion has been legally noticed in the San Francisco Chronicle and sealed bids for construction of the facility are due February 24, 2010. See Attachment 3 for a copy of the legal notice.

NCMWC additionally seeks the authority to add fish and wildlife enhancement as a purpose of use under License 1050 throughout its service area. Operation of NCMWC's extensive irrigation distribution system has created and sustained habitat throughout the service area, including habitat for at-risk species such as the giant garter snake and the Swainson's hawk. Additional habitat will be created in other portions of the service area as required, including but not limited to the proposed Giant Garter Snake Habitat Conservation and drainage canal proposed in the American Basin Fish Screen and Habitat Improvement Project.

There are no other changes being requested as a result of this petition.

#### 2. **COUNTY PERMITS**

The Petitioner provided Sacramento and Sutter County with the EIR/EIS prepared for the American Basin Fish Screen and Habitat Improvement Project for their review and comment. Permits which will be required for the project from the Counties are as follows:

Sacramento County, Department of Public Works, Transportation Division

Encroachment Permit for work within County rights-of-way, Temporary Road Closure Permit

Sutter County, Department of Public Works, Transportation Division

Design Approval for road relocations, Encroachment Permit for work within County rights-of-way, Temporary Road Closure Permit

Contact information for Sacramento and Sutter Counties is as follows:

#### 3. STATE/FEDERAL PERMITS AND REQUIREMENTS

#### a. U.S. Army Corps of Engineers (USACE)

Section 404 Clean Water Act and Section 10 Rivers and Harbors Act, Individual Permit

#### U.S. Fish and Wildlife Service (USFWS)

Endangered Species Act Section 7 consultation, Action Specific Implementation Plan (ASIP), Fish and Wildlife Coordination Report

#### National Marine Fisheries Service (NMFS)

Endangered Species Act Section 7 consultation, ASIP

#### Central Valley Regional Water Quality Control Board (RWQCB)

Section 401 Clean Water Act water quality certification, Section 402 National Pollution Discharge Elimination System general construction permit

#### California State Reclamation Board

Encroachment Permit for Levee and Floodway Encroachment

#### California State Historical Preservation Office

Section 106 National Historic Preservation Act consultation

#### California State Lands Commission

Permission for land use within the river channel

b. Sacramento Regional Flood Control Agency has submitted an application for a 404 permit to the USACE and an application for a 401 certification to the RWQCB. In response to the 404 application, USFWS and NMFS issued Biological Opinions for the project. California Department of Fish and Game (DFG) has also issued the Streambed Alteration Agreement for the project.

USACE staff have indicated that the 404 permit will be issued soon. Once the 404 permit is issued, the RWQCB will issue the 401 Water Quality Certification. NCMWC is pursuing the levee and floodway encroachment permit with the California State Reclamation Board.

c. Proposed instream construction and grading activities are described in Section 2.3.3 of the February 2008 DEIS/DEIR (see attached CD). DFG has issued a Streambed Alteration Agreement to cover instream work planned as part of the project.

#### 4. ENVIRONMENTAL DOCUMENTS

A Draft Environmental Impact Statement/Environmental Impact Report (DEIS/DEIR) dated February 2008 was prepared for the American Basin Fish Screen and Habitat Improvement Project - Sutter and Sacramento Counties, California. The California Department of Fish and Game acted as state lead agency and the U.S. Bureau of Reclamation acted as federal lead agency. The enclosed CD contains a copy the DEIR which describes the project in detail. Also included on the CD is the Record of Decision adopted by the US. Bureau of Reclamation for the project. DFG has also issued a Notice of Determination. The DEIR/DEIS and all related also be viewed online at the following address: documents can http://www.usbr.gov/mp/nepa/nepa projdetails.cfm

#### 5. WASTE/WASTEWATER

a. Will your project cause erosion, turbidity or sedimentation?

Surface water quality may be affected by construction and maintenance activities that disturb sediments.

b. Will a waste discharge permit be required for your project?

A Section 401 Clean Water Act water quality certification and a Section 402 National Pollution Discharge Elimination System general construction permit will be required prior to construction. These permit applications have been submitted and are currently being reviewed by the Regional Board.

c. What method of treatment and disposal will be used?

Measures to avoid and minimize impacts to hydrology and water quality will be specified in the following documents which will be prepared prior to construction:

- 1) A Stormwater Pollution Prevention Plan
- 2) A Construction Erosion and Sedimentation Control Plan
- 3) A Spill Prevention and Countermeasure Plan
- 4) Erosion and Sedimentation Control BMPs

#### 6. ARCHEOLOGY

c. See Section 3.4 of the American Basin Fish Screen and Habitat Improvement Project DEIS/DEIR, which contains the findings of the cultural resources study done for the project.

#### Attachment 3

#### Environmental Information For Petitions – Legal Notice License 1050 (Application 534)

ADVERTISEMENT FOR BIDS

Sealed Bids for construction of the American Basin Fish Screen & Habitat Improvement Project-Sankey Diversion, addressed to General Manager, will be received at the office of the Natomas Mutual Water Company (Owner), 2601 W. Elkhorn Boulevard, Rio Linda, California, 95673, until 1:30 p.m., local time, on the 24th day of February, 2010. Any Bids received after the specified time will not be considered, unless the Bid is delayed by U.S. Mail or commercial delivery source through no fault of Bidder.

Bids will then be publicly opened and

The Project will provide Owner with the

following:

1. Schedule A—Sankey Diversion Facilities: A new river intake facility consisting of a fish screen structure and a 434 cfs pumping plant on the Sacramento River in Sutter County.

Schedule B—Sankey Canal Facilities: A new Highline irrigation canal including a pipe bridge and connection to existing irrigation system located south of the Natomas Cross Canal in Sutter County

The Work will be completed in all respects on or before December 31, 2012.

Contractors may bid on Schedule A-Sankey Diversion Facilities, or Schedule B-Sankey Canal Facilities, or both, either combined or separately.

Bidding Documents may be examined in Owner's office or at Engineer's office, CH2M HILL, 2525 Airpark Drive, Redding, California, or at Engineer's office, Mead & Hunt, 180 Promenade Circle, Suite 240, Sacramento, California. Bidding Documents may be obtained from the Owener's office upon tained from the Owner's office upon payment of \$125 for each set of documents (reduced Drawings), unless otherwise noted. Return of the documents is not required, and the amount paid for the documents is nonrefundable.

Send requests for Bidding Documen's to the attention of Dee Swearingen at the office of the Owner, telephone: (916) 419-5936.

The following plan room services have received sets of Bidding Documents for the Work contemplated herein:

F.W. Dodge 1791 Tribute Road, Suite D Sacramento, CA 95815 Tel: (916) 920-2240 Fax: (916) 920-9368

Shasta Builders Exchange 2990 Innsbruck Drive Redding, CA 96003 Tel: (530) 221-5556 Fax: (530) 221-2140

McGraw Hill/Dodge 130 Doolittle Drive, Suite 1 San Leandro, CA 94577 Tel: (510) 636-1812 Fax: (510) 636-1858

Valley Contractors Exchange 832 Richland Road, Suite C Yuba City, CA 95991 Tel: (530) 674-2030 Fax: (530) 671-4432

Sacramento Builders Exchange 1331 T Street Sacramento, CA 95814 Tel: (916) 442-8991 Fax: (916) 446-3117

Valley Contractors Exchange 951 East 8th Street Chico, CA 95928 Tel: (530) 343-1981 Fax: (530) 343-3503

Sacramento Builders Exchange Roseville Office #1 Sierragate, Suite 290C Roseville, CA 95678 Tel: (916) 782-4762 Fax: (916) 782-4792

San Francisco Builders Exchange 850 South Van Ness Avenue San Francisco, CA 94110-1928 Tel: (415) 282-8220 Fax: (415) 821-0363

Each Bid must be submitted on the prescribed Bid Form and accompanied by Bid security as prescribed in the In-structions to Bidders, payable to the Owner in an amount not less than 10 percent of the amount Bid for Schedule A, Schedule B, or the combined Schedules A and B, whichever is higher.

The Successful Bidder will be required to furnish the additional bond(s) prescribed in the Bidding Documents

Bidder and Subcontractors shall hold or obtain such licenses as required by State Statutes, and federal and local Laws and Regulations. Bids will be accepted only from Bidders who hold California Contractors License, Class A at time of award. Failure to possess specified license shall render Bid nonresponsive.

The Work described in these Bidding Documents is to be paid for with state and federal public grant funds; therefore, minimum prevailing wages pub-lished by the State and Federal Gov-ernments and for the location of the Project are applicable.

Payment for the Work accomplished will be made through progress pay ments, but part of earned amounts will be withheld to ensure performance under the Contract.

For information concerning the pro-posed Schedule A–Sankey Diversion Facilities Work, contact Phil Ryan, CH2M HILL, Redding, CA, telephone: (530) 229 3204; email: pryan@ch2m.com.

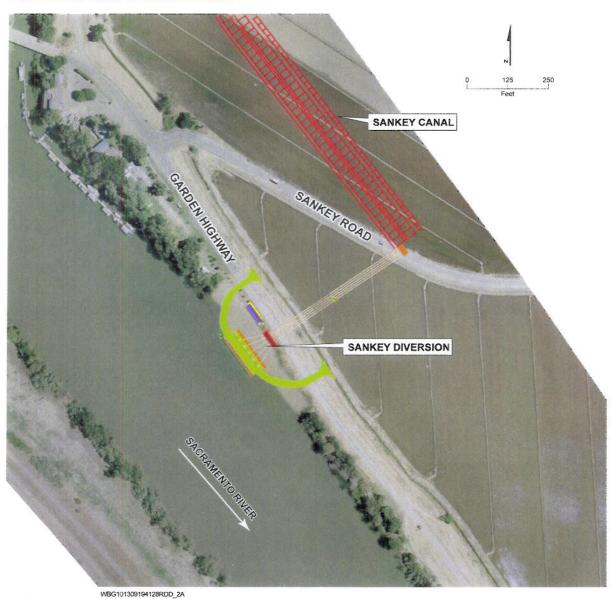

For information concerning the proposed Schedule B—Sankey Canal Facilities Work, contact Tim Busch, Mead & Hunt, Inc., Sacramento, CA, telephone: (916) 971 3961; email: tim.busch@meadhunt.com.

Owner's right is reserved to reject all Bids or any Bid not conforming to the intent and purpose of the Bidding Documents. Additionally, Owner's right to reject any and all Bids not in the best interest of Owner is also reserved.

### **Proposed Sankey Diversion**

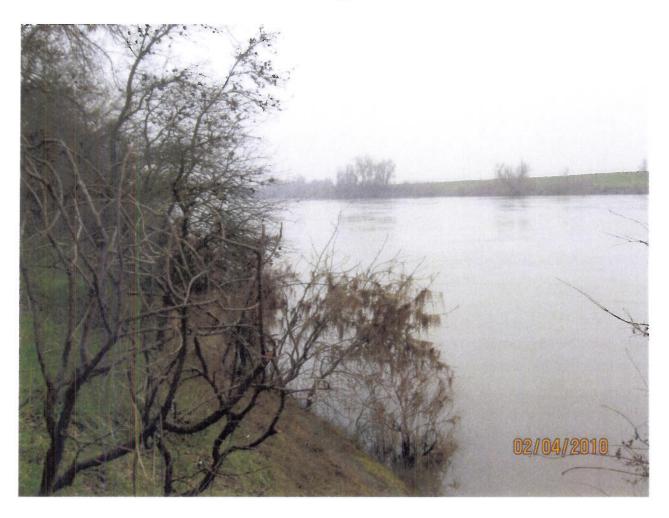

Natomas Central Mutual Water Company has been working with federal and state lead agency partners (the U.S. Bureau of Reclamation and the California Department of Fish and Game, respectively) to implement the Sankey Diversion and Canal Project. The design of the new facilities is complete and the 2.5 year construction period is slated to be initiated in 2010. The project is part of the American Basin Fish Screen and Habitat Improvement Project. The facility will be located on the east bank of the Sacramento River, approximately 0.25 mile downstream of the river's confluence with the existing Natomas Cross Canal.

A computer-generated rendering of the new Sankey Diversion facility located on the Sacramento River is shown below.

Photograph of the Sacramento River immediately upstream of the proposed Sankey point of diversion.

Photograph of the Sacramento River immediately downstream of the proposed Sankey point of diversion.

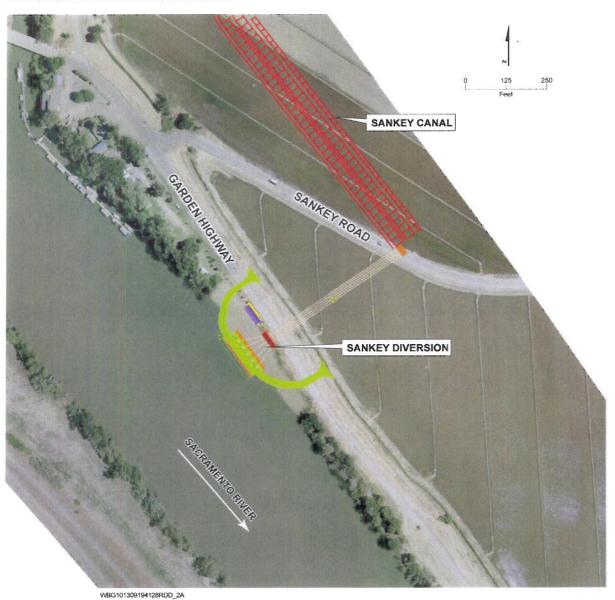

Photograph of typical place of use within Natomas Central Mutual Water District service area.
